

Thinksheet 3.5: Explain It! Creating a Diagram

Name: _____

1. What are you explaining with your diagram?

2. What are some possible titles for your diagram?

a. _____

b. _____

c. _____

3. Think about what you are explaining. What happens first? Use the stems below to help you draft the steps.

Step 1: First, _____

Step 2: Next, _____

Step 3: Then, _____

Step 4: Next, _____

Step 5: Last, _____

4. Reread your steps. Do you need to add any more details and/or steps? Fix and add any steps above.

5. For each step, list a possible picture that would be helpful in explaining the step. Also, include any labels that you think would be helpful.

| Picture | What step or steps might help explain this picture? | What labels might go with this picture? |
